

**CITY OF BALTIMORE
NEW JONES FALLS FORCE MAIN AND
PRESSURE SEWER
SANITARY CONTRACT NO. 800R
Progress Update – June 2006**

Project Progress

Good News – Work will soon begin!

Work will soon begin in your neighborhood for improvements to the Jones Falls Force Main and Pressure Sewer. Crews will start construction on April 18th at the following locations:

- Ash Street between Clipper Road & Clipper Mill Road
- 33rd Street between Pain Street & Keswick Road
- Broadway between North Avenue & Oliver Street
- Clipper Mill Road between Ash Street & Falls Road

Flyers will be handed out door-to-door, two weeks prior to April 18th alerting all affected residents of impending construction, what to expect, and any possible road closures. As the project progresses, residents will continue to be notified by way of flyer, and the website will be updated. Also, be on the look-out; pre-construction surveys and videos will start March 21, 2006.
